**Title of the Manuscript:** \_\_\_\_\_ -

I/we certify that I/we contributed enough to the intellectual material, conception and design of this work, or the study and interpretation of data (when applicable), as well as the writing of the manuscript, to accept public responsibility for it and have agreed to have my/our name identified as an author. I/we agree the manuscript is well-written. Each author attests to the fact that they follow the ICMJE's authorship requirements. Except as stated in the covering letter, neither this manuscript nor one with substantially similar content under my/our authorship has been published or is being considered for publication elsewhere. I/we certify that this manuscript contains all of the data obtained during the research, and that no data from the study has been or will be released separately.

I/we certify that, if requested by the editors, I/we will provide the data/information on which the manuscript is based, or will completely cooperate in obtaining and providing the data/information on which the manuscript is based, for review by the editors or their assignees. Individual contributors' financial interests, direct or indirect, that exist or may be perceived to exist in relation to the content of this paper have been stated in the cover letter. The cover letter lists the sources of outside funding for the project. In the event that such work is published by the Journal, I/We hereby transfer(s), assign(s), or otherwise convey(s) all copyright ownership, including any and all rights incidental thereto, exclusively to the Journal. The work shall be owned by the Journal, which includes 1) copyright; 2) the right to grant permission to republish the article in whole or in part, for a fee or without fee; 3) the right to create preprints or reprints and translate into languages other than English for sale or free distribution; and 4) the right to republish the work in a compilation of articles in some other mechanical or electronic format.

We grant the corresponding author permission to make any required changes at the journal's request, to handle the rest of the correspondence on our behalf, and to serve as our guarantor for the manuscript. Unless the publication notifies the author in writing, the article will be published under the terms of the most recent Creative Commons Attribution-NonCommercial-ShareAlike License. All individuals who have made significant contributions to the work mentioned in the manuscript but are not contributors are acknowledged in the Acknowledgement and have given me/us written permission to be acknowledged. If I/we don't have an Acknowledgement, it means I/we didn't receive any significant contributions from non-contributors, and no contributor has been left out.
